F. Fordham	MPRO-3
R. Bernard	MPRO-4
E. Sumpter	MPRO-45
J. Breach	MPRO-41
R. Byles	MPRO-5

2. The following proposals were recommended:

a. Phase out the ATLAS I's and ATLAS II's which will release 15 bays of space.

b. Sometime after the installation of the IBM 650 and CHARCOAL in its planned area

(1) Re-locate these systems into the present DEMON III space;

(2) Move the present 705 EAM periferal support to the space vacated by (1) above;

(3) Phase out a 705 system;

(4) Thus the space left by the EAM and 705 equipments (13 bays) could be utilized.

3. Mr. O. Kirby, Chief MPRO, has indicated a strong desire for implementing 2a as a first choice for HARVEST. The other plans discussed have been purposely left out.
